

## Driver RFID Tag Installation Instructions

Take note of your new RFID tag number, advise the number to your dispatcher, this will need to be updated on [www.emodal.com](http://www.emodal.com) and associated with the truck onto which it was installed.

You will need a flat-head screw-driver to install the RFID tag onto your Driver's-side mirror bracket, securing the tag in place by wrapping the clamps around the mirror bracket, and placing the bands over the metal tabs on the RFID tag bracket. On the upper part of the mirror bracket for a standard mirror, using the small clamps, or use the large clamps for a low-profile mirror bracket.
